

D'Ewart Representatives, L.L.C.

a non-stocking manufacturer's representative

PO Box 866, Bothell, WA 98041 425-485-6545 www.dewart.com

Allwire, Inc. – Control cable and Specialty wire products

AMSC (American Superconductor Corp.) – STATCOM system, SVC solutions, Superconductor Cable Systems, Fault current limiters, Power quality solutions

Buckingham – Tools for Linemen, Fall Prevention, Climbing tools

Copperweld Bimetallics, LLC. – Copper cladding metallurgically bonded to a steel core, combines the strength of steel with the conductivity and corrosion resistance of copper

EDM International, Inc. – PhaseTrakker® Inspection and Assessment services

Hardcraft – NEMA Enclosures and seismic relay racking

Hastings Hotline Tools – Hotline tools and Equipment

Hitachi T&D Solutions – Dead tank high-voltage circuit breakers, gas-insulated switchgear, transformers, and generator main circuit breakers

Hughes Brothers – Wood, Steel and Fiberglass T&D materials

Incab America LLC – OPGW, ADSS and all types of Optical Cable

Laminated Wood Systems – Laminated wood poles, PhaseRaiser for raising structures, PoleEnforcer

Lindsey Manufacturing Company – Engineering T&D products and services

Marmon Utility:

Hendrix Molded – PE Insulators 35kv and below, Pin and Vice Type and Wild Life Protection

Hendrix (XLP) and Kerite (EPR) – Primary URD Power Cable

Kerite High Voltage & Specialty Cable – High Voltage Power Cable & Services, 46kV – 138kV

Megger – Precision test equipment for Substations, Distribution and Transmission Applications

Nehring Wire Works – Copper and Aluminum Bare and Insulated Wire, Ground Rods

NOJA Power – Provides high quality assured 15kV-38kV single and three-phase Automatic Circuit Recloser

Nordic Fiberglass – Box pads, Sectionalizing Cabinets, and Pedestals for URD

PPC Insulators – Porcelain Insulators for Substation and T&D

Preformed Line Products – Transmission and Distribution Conductor and Fiber Optic cable support, Splices and Dead ending products, Fiber Optic Splice Case Family, and Wild Life Protection

Ripley Co. – Cable preparation tools

Ritz Instrument Transformers – Instrument transformers from 600V to 500 kV, cast-coil power transformers, and solid insulation bus-bar systems

Scott Engineering – Padmounted and Polemounted equipment: Switchgear, Sectionalizing, Capacitors

SEECO – High Voltage Air and Load Break Switches, GOABS®, Motor Operators, Sensors

Sediver USA – Experts & pioneers since 1947 in toughened glass insulator technology for T&D

Shakespeare – Fiberglass Poles and Fiberglass Cross-Arms **Carsonite Composites** – Visibility and safety marking products

Tapp – T&D steel structures including: monopoles, H-Frames, 3 pole structures, & highly customized configurations

Technibus – Metal enclosed bus systems including Isolated Phase Bus, Segregated Bus and Non-Segregated Phase Bus Systems and Field Service

TransGard – Animal-deterrent fencing for electrical substations

Trayer Engineering Corporation – 5-35 kV Padmount and Submersible MV Vacuum Switchgear Products
