

D'Ewart Representatives, L.L.C.

a non-stocking manufacturer's representative

PO Box 866, Bothell, WA 98041 425-485-6545 www.dewart.com

Allwire, Inc. – Control cable and Specialty wire products

AMSC (American Superconductor Corp.) – STATCOM system, SVC solutions, Superconductor Cable Systems, Fault current limiters, Power quality solutions

Buckingham – Tools for Linemen, Fall Prevention, Climbing tools

Copperweld Bimetals, LLC. – Copper cladding metallurgically bonded to a steel core, combines the strength of steel with the conductivity and corrosion resistance of copper

EDM International, Inc. – PhaseTrakker[®] Inspection and Assessment services

Hastings Hotline Tools – Hotline tools and Equipment

Hughes Brothers – Wood, Steel and Fiberglass T&D materials

Incab America LLC – OPGW, ADSS and all types of Optical Cable

iS5 Communications – Global leader in cyber secure digital cloud platforms that drive edge and IIoT solutions. Platforms for smart grid with high performance, reliability, and availability in harsh environments.

Laminated Wood Systems – Laminated wood poles, PhaseRaiser for raising structures, PoleEnforcer

Lindsey Systems – Engineering T&D products and services

Marmon Utility:

Hendrix Molded – PE Insulators 35kv and below, Pin and Vice Type and Wild Life Protection

Hendrix (XLP) and Kerite (EPR) – Primary URD Power Cable

Kerite High Voltage & Specialty Cable – High Voltage Power Cable & Services, 46kV – 138kV

Megger – Precision test equipment for Substations, Distribution and Transmission Applications

Meiden America Switchgear – 72.5kV to 145kV Substation Air Insulated Vacuum Circuit Breakers

Nehring Wire Works – Copper and Aluminum Bare and Insulated Wire, Ground Rods

NOJA Power – Provides high quality assured 15kV-38kV single and three-phase Automatic Circuit Recloser

Nordic Fiberglass – Box pads, Sectionalizing Cabinets, and Pedestals for URD

PPC Insulators – Porcelain Insulators for Substation and T&D

Powercon Corp – Metal-Clad Switchgear 2400V through 38kV, Indoor, Outdoor Non Walk-In, Sheltered Aisle. Metal-Enclosed Interrupter Switchgear 2400V through 38kV. POWERCON products are in service in the utility, industrial, institutional and commercial markets worldwide. **Representative in Idaho, Montana, Utah & Wyoming**

Power Partners – Distribution transformers, Pole mounted single phase 5-1000KVA and three phase 30-500KVA at 34.5kV and below. Single-Phase Pad-Mounted Distribution Transformers up to 100 KVA.

Preformed Line Products – Transmission and Distribution Conductor and Fiber Optic cable support, Splices and Dead ending products, Fiber Optic Splice Case Family, and Wild Life Protection

Rugged Monitoring – Fiber Optic Temperature Sensing for Power Transformers

Scott Engineering – Padmounted and Polemounted equipment: Switchgear, Sectionalizing, Capacitors

SEECO – High Voltage Air and Load Break Switches, GOABS[®], Motor Operators, Sensors

Shakespeare – Fiberglass Poles and Fiberglass Cross-Arms **Carsonite Composites** – Visibility and safety marking products

TAPP – T&D steel structures incl: monopoles, H-Frames, 3 pole structures, and highly customized configurations

Technibus – Metal enclosed bus systems, Isolated Phase Bus, Segregated/Non-Segregated Bus Systems, Field Service

Trayer Engineering Corporation – 5-35 kV Padmount and Submersible MV Vacuum Switchgear Products

WEG Transformers USA – Power Transformers 7.5MVA to 400MVA, 7.5KV to 500kV and 3 Phase Distribution Transformers
