

# D'Ewart Representatives, L.L.C.

*a non-stocking manufacturer's representative*

PO Box 866, Bothell, WA 98041 425-485-6545 [www.dewart.com](http://www.dewart.com)

---

**Allwire, Inc.** – Control cable and Specialty wire products

**AMSC (American Superconductor Corp.)** – STATCOM system, SVC solutions, Superconductor Cable Systems, Fault current limiters, Power quality solutions

**Buckingham** – Tools for Linemen, Fall Prevention, Climbing tools

**Copperweld Bimetals, LLC.** – Copper cladding metallurgically bonded to a steel core, combines the strength of steel with the conductivity and corrosion resistance of copper

**EDM International, Inc.** – PhaseTrakker<sup>®</sup> Inspection and Assessment services

**Hastings Hotline Tools** – Hotline tools and Equipment

**Hughes Brothers** – Wood, Steel and Fiberglass T&D materials

**Incab America LLC** – OPGW, ADSS and all types of Optical Cable

**iS5 Communications** – Global leader in cyber secure digital cloud platforms that drive edge and IIoT solutions. Platforms for smart grid with high performance, reliability, and availability in harsh environments.

**Laminated Wood Systems** – Laminated wood poles, PhaseRaiser for raising structures, PoleEnforcer

**Lindsey Systems** – Engineering T&D products and services

**Marmon Utility:**

**Hendrix Molded** – PE Insulators 35kv and below, Pin and Vice Type and Wild Life Protection

**Hendrix (XLP) and Kerite (EPR)** – Primary URD Power Cable

**Kerite High Voltage & Specialty Cable** – High Voltage Power Cable & Services, 46kV – 138kV

**Megger** – Precision test equipment for Substations, Distribution and Transmission Applications

**Meiden America Switchgear** – 72.5kV to 145kV Substation Air Insulated Vacuum Circuit Breakers

**Nehring Wire Works** – Copper and Aluminum Bare and Insulated Wire, Ground Rods

**NOJA Power** – Provides high quality assured 15kV-38kV single and three-phase Automatic Circuit Recloser

**Nordic Fiberglass** – Box pads, Sectionalizing Cabinets, and Pedestals for URD

**PPC & LAPP Insulators** – Porcelain Insulators for Substation, Transmission, and Distribution applications including Post, Long Rod, Hollow, RTV coated, and Resistance Graded RG© types.

**Powercon Corp** – Metal-Clad Switchgear 2400V through 38kV, Indoor, Outdoor Non Walk-In, Sheltered Aisle. Metal-Enclosed Interrupter Switchgear 2400V through 38kV. POWERCON products are in service in the utility, industrial, institutional and commercial markets worldwide. **Representative in Idaho, Montana, Utah & Wyoming**

**Preformed Line Products** – Transmission and Distribution Conductor and Fiber Optic cable support, Splices and Dead ending products, Fiber Optic Splice Case Family, and Wild Life Protection

**Rugged Monitoring** – Fiber Optic Temperature Sensing for Power Transformers

**Scott Engineering** – Padmounted and Polemounted equipment: Switchgear, Sectionalizing, Capacitors

**SEECO** – High Voltage Air and Load Break Switches, GOABS<sup>®</sup>, Motor Operators, Sensors

**Shakespeare** – Fiberglass Poles and Fiberglass Cross-Arms **Carsonite Composites** – Visibility and safety marking products

**TAPP** – T&D steel structures incl: monopoles, H-Frames, 3 pole structures, and highly customized configurations

**Technibus** – Metal enclosed bus systems, Isolated Phase Bus, Segregated/Non-Segregated Bus Systems, Field Service

**Trayer Engineering Corporation** – 5-35 kV Padmount and Submersible MV Vacuum Switchgear Products

**WEG Transformers USA** – Power Transformers 7.5MVA to 400MVA, 7.5KV to 500kV and 3 Phase Distribution Transformers
