D'Ewart Representatives, L.L.C.

a non-stocking manufacturer's representative

PO Box 866, Bothell, WA 98041 425-485-6545 www.dewart.com

Allwire, Inc. – Control cable and Specialty wire products

AMSC (American Superconductor Corp.) – STATCOM system, SVC solutions, Superconductor CableSystems, Fault current limiters, Power quality solutions

Buckingham – Tools for Linemen, Fall Prevention, Climbing tools

Copperweld Bimetallics, LLC. – Copper cladding metallurgically bonded to a steel core, combines the strength of steel with the conductivity and corrosion resistance of copper.

EDM International, Inc. – PhaseTrakker® Inspection and Assessment services

Hastings Hotline Tools – Hotline tools and Equipment

Hughes Brothers – Wood, Steel and Fiberglass T&D materials

Incab America LLC – OPGW, ADSS and all types of Optical Cable

Laminated Wood Systems – Laminated wood poles, PhaseRaiser for raising structures, PoleEnforcer reinforcement

Marmon Utility:

- **Hendrix Aerial** – Overhead Spacer Cable
- **Hendrix Molded** – PE Insulators 35kv and below, Pin and Vice Type and Wild Life Protection
- **Hendrix (XLP) and Kerite (EPR)** – Primary URD Power Cable

Meiden America Switchgear – 72.5kV to 145kV Substation Air Insulated Vacuum Circuit Breakers

Nehring Electrical Works – Copper and Aluminum Bare and Insulated Wire, Ground Rods, 600V Secondary URD

NOJA Power – Provides high quality assured 15kV-38kV single and three-phase Automatic Circuit Recloser

Nordic Fiberglass – Box pads, Sectionalizing Cabinets, and Pedestals for URD

Phoenix Contact – Comprehensive supplier of connection technology including but not limited to: terminal blocks, power supplies, safety relays, Networking and IIoT solutions for harsh environments, tools, and automation.

PPC & LAPP Insulators – Porcelain Insulators for Substation, Transmission, and Distribution applications including Post, Long Rod, Hollow, RTV coated, and Resistance Graded RG© types.

Powercon Corp – Metal-Clad Switchgear 2400V through 38kV, Indoor, Outdoor Non Walk-In, Sheltered Aisle. Metal-Enclosed Interrupter Switchgear 2400V through 38kV. POWERCON products are in service in the utility, industrial, institutional and commercial markets worldwide.

Rugged Monitoring – Fiber Optic Temperature Sensing for Power Transformers

Schneider Electric– Utility Metering Products & Software - ION Metering & PME Software, Services, Protection & Control products & solutions for Substation & Feeder Automation, etc.

SEECO – High Voltage Air and Load Break Switches, GOABS®, Motor Operators, Sensors

Shakespeare – Fiberglass Poles and Fiberglass Cross-Arms **Carsonite Composites –** Visibility and safety marking products

TAPP – T&D steel structures incl: monopoles, H-Frames, 3 pole structures, and highly customized configurations

Technibus – Metal enclosed bus systems including Isolated Phase Bus, Segregated Bus and Non-Segregated Phase Bus Systems and Field Service

Trayer Engineering Corporation – 5-35 kV Padmount and Submersible MV Vacuum Switchgear Products

WEG Transformers USA – Power Transformers 7.5MVA to 400MVA, 7.5KV to 500kV and 3 Phase Distribution Transformers
