

D'Ewart Representatives, L.L.C.

a non-stocking manufacturer's representative

PO Box 866, Bothell, WA 98041 425-485-6545 www.dewart.com

Allwire, Inc. – Control cable and Specialty wire products

AMSC (American Superconductor Corp.) – STATCOM system, SVC solutions, Superconductor Cable Systems, Fault current limiters, Power quality solutions (PacifiCorp only)

EDM International, Inc. – PhaseTrakker® Inspection and Assessment services

Hughes Brothers – Wood, Steel and Fiberglass T&D materials

Marmon Utility:

Hendrix Molded – PE Insulators 35kv and below, Pin and Vice Type and Wild Life Protection

Meiden America Switchgear – 72.5kV to 145kV Substation Air Insulated Vacuum Circuit Breakers

NOJA Power – Provides high quality, quality assured 15kV thru 38kV single and three-phase Automatic Circuit Reclosers

Power Partners – Distribution transformers, Pole mounted single phase 5-1000KVA and three phase 30-500KVA at 34.5kV and below. Single-Phase Pad-Mounted Distribution Transformers up to 100 KVA

PPC Insulators – Porcelain Insulators for Substation and T&D

Rugged Monitoring – Fiber Optic Temperature Sensing for Power Transformers

Sediver USA – Experts & pioneers since 1947 in toughened glass insulator technology for T&D

Sentient Energy – Combines intelligent sensors easily deployable on any powerline with powerful management and analytics applications enabling utilities to detect faults, preempt problems and deliver dependable power

TAPP – T&D steel structures incl: monopoles, H-Frames, 3 pole structures, and highly customized configurations

Technibus – Metal enclosed bus systems including Isolated Phase Bus, Segregated Bus and Non-Segregated Phase Bus Systems and Field Service

Trayer Engineering Corporation – 5-35 kV Padmount and Submersible MV Vacuum Switchgear Products
